The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.

Claims 1, 3-6, 8-17, 19-21 and 23-24 are rejected under 35 U.S.C. 103(a) as being unpatentable over Baxter in view of Tanenbaum.

Claim 7 is rejected under 35 U.S.C. 103(a) as being unpatentable over Baxter and Tanenbaum in view of Raghunathan.

Details of the rejection have already been set forth in the last Office action. The details are incorporated herein by reference thereto.

Applicants contend that the applied references do not teach an instruction that operates upon plural registers (the wherein clause merely further describes in detail what an instruction that operates upon plural registers means). Note that each of Tanenbaum's instructions has more than one operand fields. Each operand is stored in different registers of the register file. For example, an add instruction has two operand fields for two addends which are stored in two registers respectively.

**THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of
